Chicago, April 1, 1895.
Henry Garben, Proprietor, Minerva Mineral Springs, Cary, Ill.:
I have made a bacteriological examination of the Minerva Spring Water by culture method, and have found the water free of bacteria.

Henry Garben, Proprietor, Minerva Mineral Springs, Cary, Ill.:
Dear Sir—On the 31st of January of this year I visited your spring at Cary, Ill., and personally took samples of water from it. From the very favorable results of my examination and tests, and from the additional fact that Prof. Wheeler found neither nitrates nor nitrites in the water, I am led to the conclusion that the water from your spring is practically free from organic matter and is one of great purity.

When I visited your spring I noticed with much interest the use of your patented device for protecting it from surface contamination, and I believe, as the results of my observation and tests, that the object is fully accomplished. Yours respectfully,
WALTER S. HAINES.

All packages filled at the Springs.
O. Gilbert Wheeler, chemist, 143 Lake street, says: "Minerva Spring Water is entirely free from organic matter, is of unusual purity, and is especially adapted for table use."

Why Old Fats and Houses Don't Rent.
Real estate men and owners should not overlook the fact that the Lake View Gas Fixture Company, 233 Lincoln avenue, Telephone North 708, refinish old chandeliers, making them equal to new at very small cost. In many cases after expending money for calculating or repairing, the chandeliers are left in the same dirty, fly-specked condition as before, and are not in keeping with the new decorations, thereby spoiling that which has been done, when at a very small cost the chandeliers, brackets, etc., can be refinished equal to new. We refinish in all the latest colors, such as polished brass, gilt, rich gilt, old copper, polished copper, oxidized copper, silver and gold.

We are also makers of a fine line of gas fixtures at prices to suit the times. Call up North 708. Our agent will call and estimate.
